Technical data

A major rescue operation?
A large-scale intervention?
A demanding outdoor event?
Working on a large-scale construction site?

At OEI we totally understand the importance of having the correct lighting for the situation.

That's why we designed and built a floodlight that meets the daily challenges of the most demanding customers.

This portable lamp was designed to provide the highest quality light: light with unsurpassed power and guaranteed stability.

The excellent quality of products available from OE Industry did not come about by chance.

- + Only the best materials – reliable and proven in the field.
- + Solutions from specialists that understand your day to day challenges.
- + The latest technology, because safety is more than just a standard. It is the basis.
