Technical data

The latest OEI floodlight is composed of two panels.  
You can select the beam of light you require: long, wide or combo.

**Adapt the lamps to the task at hand. Minimise power consumption.  
With OEI floodlights, each panel can be activated separately.**

Is the working area close by?  
Choose a panel with a colour temperature of 4000k.

Do you need a long - range light?  
A panel with a colour temperature of 5700K will work best here.K.

Outdoors and indoors. In the most difficult weather conditions and for the most demanding tasks.  
**Lighting from OEI is synonymous with reliability. Always.**
